

**Did you know that you can access your patients' gaps in care on the provider portal, McLaren CONNECT?**

When seeing McLaren Health Plan (MHP) members, check the portal at [www.mclarenhealthplan.org/mclarenconnect](http://www.mclarenhealthplan.org/mclarenconnect), to see if any gaps can be closed during the visit!

See example below:

Gaps in Care		
Type	Description	Status
Children and Adolescents Access to Primary Care Practitioners	Children and Adolescents Access to Primary Care Practitioners	Completed
BMI Percentile	Weight Assessment and Counseling for Nutrition and Physical Activity for Children and Adolescents	Completed
Counseling for Nutrition	Weight Assessment and Counseling for Nutrition and Physical Activity for Children and Adolescents	Needed
Counseling for Physical Activity	Weight Assessment and Counseling for Nutrition and Physical Activity for Children and Adolescents	Needed

You can turn a sick visit into a well visit by incorporating the elements of a well child exam into the visit. You will be able to bill MHP for services performed for both the sick and well child. You can do this by adding modifier 25 to the sick visit and **you will be reimbursed for both services.**

**A sports physical** can also become a well child visit by adding anticipatory guidance (nutrition, health and social/behavior) to the sports physical's medical history and physical exam. **Visit must include the following:**

- Physical growth and development assessment
- Mental developmental history
- Complete physical exam
- Hearing and vision screening
- Anticipatory guidance
